

January 6, 1978

LB 469, 407, 18,
212, 436

SENATOR REUTZEL: No. Mr. President, Senator Koch's office just called. They'd like to put that at the bottom of the calendar, since he's not here.

SENATOR MARVEL: Okay. If we pass over 469, according to the Speaker's orders, it will then go to the bottom of the priority list. Is that what you mean, Senator Reutzel? Senator Carsten.

SENATOR CARSTEN: Mr. President, I would yield to Senator Barnett. I think he has a comment relative to this procedure.

SENATOR BARNETT: All I wanted to say is that if...I don't know if Senator Reutzel had said it or not, or Carsten, but that's all right. Pass over it. The Chairman of the Committee does know that that will happen.

SENATOR MARVEL: Yes, okay. Thank you. We'll move on to.... Is Senator Labeledz here? Lb 407. Senator Labeledz has left a motion that this bill be bracketed until February 15th. This is a unanimous consent request. Is there an objection? If there is not, so ordered. Next bill, LB 18. That is Senator Nichol's bill. Senator Nichol will be excused for the week, so the bill will drop to the bottom of the priority list. LB 212, Senator Kremer.

SENATOR KREMER: Mr. Chairman, a question....

SENATOR MARVEL: Excuse me. I'm sorry. Senator Cullan.

SENATOR CULLAN: Mr. President, members of the Legislature, wasn't LB 18 bracketed? I thought there was a motion yesterday to bracket it, or earlier.

SENATOR MARVEL: I don't think so.

SENATOR CULLAN: I thought Senator Nichol had a motion to bracket.

SENATOR MARVEL: Yes, you're right. It is bracketed. Okay. It's an agenda mistake. Thank you Senator Cullan. We'll go now to Senator Kremer.

SENATOR KREMER: Mr. Chairman, question. Is it still possible to substitute another bill for the one we presently have on our priority? I'm asking the Chair.

SENATOR MARVEL: I can't answer the question. I would say no, but I.... What is your pleasure, Senator?

SENATOR KREMER: The reason I'm asking is because the people that want that bill, it's a jail standards bill, the county sheriffs wanted to incorporate the language of that bill with a new bill, it will come close to.... They asked me not to use this priority bill at this time. I have another bill I'm quite anxious about. I'll tell you what I'm willing to do, I'm willing to drop that to the bottom of general file until we get a further answer. So I ask, Mr. Chairman, that we pass over LB 212.

SENATOR MARVEL: Okay. Senator Kremer asks unanimous consent that we pass over 212. If there are no objections, it will then drop to the bottom the priority list. Senator Chambers, are you prepared for 436?
